OUR MOTTO

“CUSTOMER'S DELIGHT”

OUR VISION

To strive a long standing relationship with the client through committed job in a time bound ultimatum.

OUR MISSION

We strive for Total Customer's satisfaction, it's our greatest asset.

OUR RANGE OF ACTIVITIES

WATER TREATMENT PLANTS & CHEMICALS:

Dual Media Filter, Iron Removal Filter, Pressure Sand Filter, Multi grade Sand Filter, Softener Plant, DM Plant, Activated Carbon Filter, ETP, STP, Chemical Dozer, **Reverse Osmosis Plant**, , Testing Kit like pH, TDS Meter, Iron & Hardness, Packaged Drinking Water Project etc. RO Chemicals, Cooling Tower Chemicals, Boiler Chemicals, ETP & STP Chemicals etc.

We trust you will find the above meeting with your requirement and we now look forward for the pleasures of receiving your valued order in due course.

Yours Faithfully,

CLASSIC INDIA

AN ISO 9001 : 2008 CERTIFIED COMPANY

SEWAGE TREATMENT PLANT

Our Sewage Treatment Plants cater in diversified areas such as Residential Complexes, Hospitals, Schools & Institutions, Hotels & Resorts etc., to name a few
We have professional expertise to deal in the following Sewage Treatment Technologies.

EXTENDED AERATION [EA]
MOVING BED BIO REACTOR [MBBR]
SEQUENCING BATCH REACTOR [SBR]
SUBMERGED AERATION FIXED FILM [SAFF]
FLUIZIED AEROBIC BIO REACTOR[FAB]
MEMBRANE BIO REACTOR [MBR]

EFFLUENT TREATMENT PLANT

Our Effluent Treatment Plants cater in diversified areas such as Textile Industry, Electroplating & Pickling Industries, Hospitals, Automobile Industries, Food & Beverages, Pharmaceutical Industries, Export Houses etc., to name a few

We have professional expertise to deal in the following Effluent Treatment Technologies.

PHYSIO- CHEMICAL TREATMENT
BIOLOGICAL TREATMENT
AEROBIC TREATMENT PLANT
ACTIVATED SLUDGE TREATMENT PLANTS
EXTENDED AERATION SYSTEM

UV STERILIZERS
ULTRA FILTRATION
REVERSE OSMOSIS
OZONATION
DISINFECTION
NITRATE REMOVAL
IRON REMOVAL
ARSENIC REMOVAL

DEMINERALIZATION PLANT

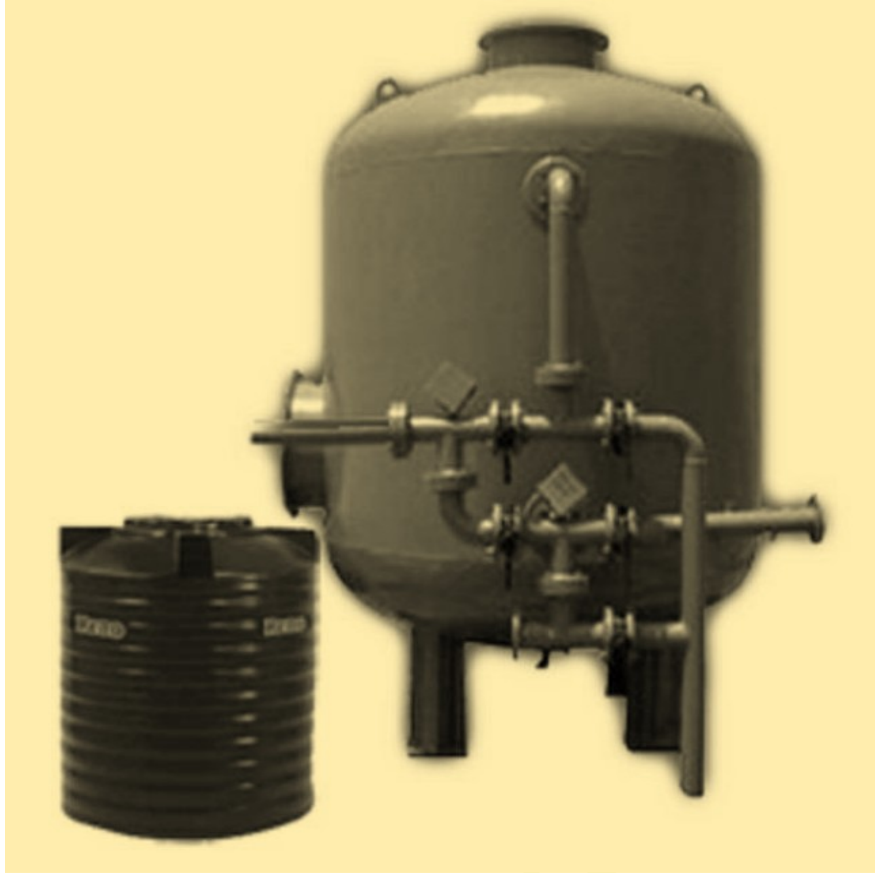

Demineralization or Deionization is the process of removing mineral salts from water by using the ion exchange process. With most natural water sources it is possible to use Demineralization and produce water of a higher quality than conventional distillation

Classic India

WATER SOFTNER PLANT

WATER HARDNESS exists in significant areas of the country. Water softeners remove hard undesirable dissolved minerals that result in annoying white scales on fixtures, appliances and piping. Softening the water produces immediate benefits - reduce usage of soap & detergent, cleaner clothes, and better tasting food and beverages

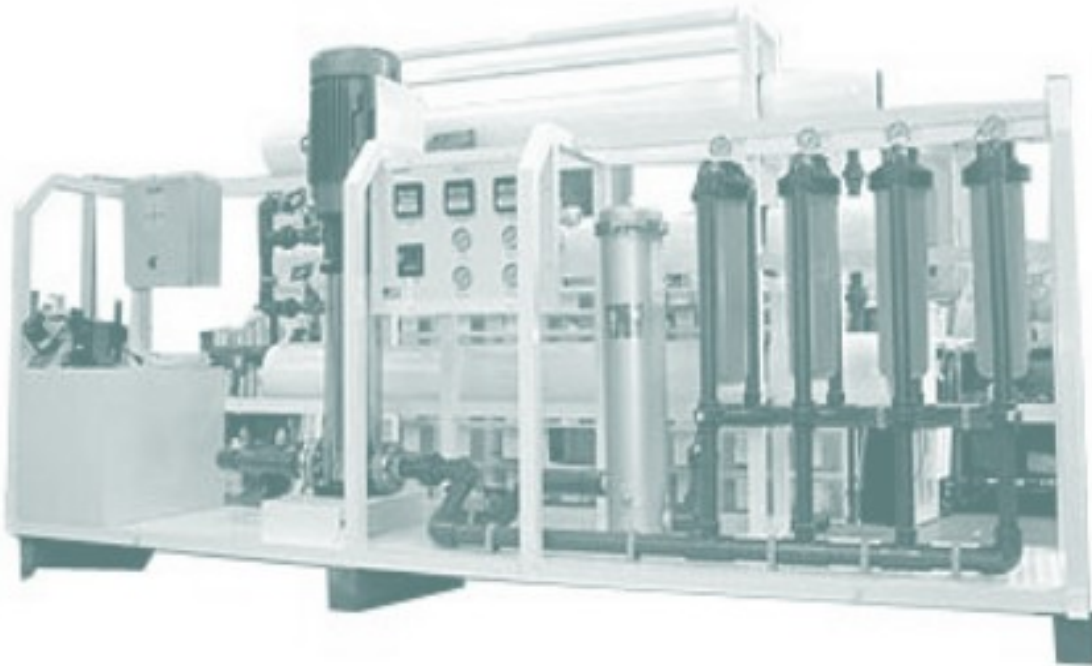

REVERSE OSMOSIS PLANT

Reverse osmosis is the process of forcing a solvent from a region of high solute concentration through a membrane to a region of low solute concentration by applying a pressure in excess of the osmotic pressure. This is the reverse of the normal osmosis process, which is the natural movement of solvent from an area of low solute concentration, through a membrane, to an area of high solute concentration when no external pressure is applied. The membrane here is semi permeable, meaning it allows the passage of solvent but not of solute.
